POSTERS

REMEMBER! 
5S FOR A LEAN WORKPLACE

SORT
Organize
Remove only what is necessary and discard everything else - "what's in it for me?"

SET IN ORDER
Order items
Arrange everything used and often to support the safety and productivity of equipment.

SHINE
Cleanliness
Keep everything used and often to support the safety and productivity of equipment.

STANDARDIZE
Consistency
The rules that define when to do things, how, or "to" are equally important.

SUSTAIN
Ownership for results
Making a habit of properly maintaining your production.

THE 5S EXPERTS

For years, Accuform has been a leader in the field of 5S – helping businesses promote efficiency and productivity while also eliminating waste. We're more committed than ever to helping you streamline your facility's operations with everything from KPI boards to 5S red tag supplies, to motivational banners, marking tapes, and beyond. Let us help you promote a more organized – and safe – work environment by implementing 5S tools and practices.

INFORM

KPI boards and posters keep your employees aware of proper procedures and goals.

PROTECT

From PPE-ID™ Charts to Store-Boards™ that eliminate clutter, we have what you need to keep workers safe.

MOTIVATE

Ensure everyone's working together and following the program with an array of motivational posters and banners.

5S/Lean Solutions To Communicate A Visual Workplace

5S is a key component of the lean manufacturing program for continuous process improvement, Kaizen, and complements elements of Kanban. The goal of the system is to design, develop, and establish an effective and efficient workspace through visual identification and organization of work items and intuitively designed processes and procedures. By involving employees in the program, the work activities become standard, routine practices.

5S promotes an organized, visual workplace where standardized procedures improve productivity, quality, safety, and worker attitudes, which can increase profitability and eliminate waste.

PERSONALIZE IT!

Custom Store-Boards™

5S/Lean Shadow Boards

A place for everything... and everything in its place!

At a glance, see that tools and supplies are in their designated storage location, displayed on the board. Store-Boards™ are ideal for 5S processes and other lean initiatives.

- Organize your tools, supplies, equipment, and materials
- Provide striking, graphical visual point-of-storage for the tools
- Shadow outlines with words identify where tools should be when not in use
- Show readily-available tools to maintain machinery, equipment, and operations
- Account for missing tools and equipment, avoid time wasted looking for and replacing them, and ensure availability when needed next time

At a glance,
see that tools
and supplies
are in their
designated
storage
location.

e. We can design any style to meet your needs!

Materials to meet the demands of any work setting from food contact to durability.

AccuShield™

Accu-Shield™ our highest performance material is a two-ply, non-glare, polycarbonate plastic, specially formulated to resist color changes (UV-stable), chemicals splashes, corrosion, and abrasions. Subsurface print protected with industrial grade cast vinyl will continue to look good for years while maintaining its superior strength. The heavy-duty construction provides a rugged yet stylish appearance.

Key Features:

- Unaffected by corrosion or chemicals
- Non-glare matte finish with subsurface print
- .189" thick
- Service temperature: -58° to 175°F

Applications:

- Harsh chemical environments
- Indoor/outdoor
- Industrial /Manufacturing
- Food & beverage

AccuShield™ FB-X

Accu-Shield™ FB-X is your go to material for the food and beverage industry. This polyester based material is UV-stable, subsurface printed, and finished with a cast vinyl backer to protect your message from damage while maintaining optimum clarity.

Key Features:

- Chemical resistant, withstands splashes and ammonia wash downs
- Features gloss finish; safe for contact with foods in accordance with 21 CFR 174.5(d)
- .179" thick
- Service temperature: -60° to 212°F

Applications:

- Frozen foods
- Food & beverage
- Meat processing
- Dairy

Ultra Aluma-Lite™

Ultra Aluma-Lite™ is a composite plastic bonded by two layers of aluminum to form an extremely durable product. Composite aluminum is extremely durable and light-weight (40% lighter than solid aluminum) making it an ideal choice for indoor or outdoor use.

Key Features:

- Corrosion and impact resistant
- UV-resistant
- .236" thick
- Service temperature: -60° to 260°F

Applications:

- Industrial environments
- Indoor/outdoor
- Construction

Max-Duty Aluminum

Max-Duty Aluminum is versatile material that provides the strength of metal yet never rusts. Max-Duty Aluminum comes with UV protective coating to prevent fading, chemical damage and graffiti.

Key Features:

- Chemical, abrasion and impact resistant
- UV-resistant
- .080" thick
- Service temperature: -40° to 250°F

Applications:

- Warehouse, industrial
- Commercial industry
- Indoor/outdoor

Store-Boards™ are designed so the graphics, wording, and message will remain unchanged in clarity, color, and sharpness throughout the durability period. Store-Boards™ are sold with the understanding that the buyers will test this material, in actual use, to determine for themselves its adaptability to their intended environment and use(s). Accuform warrants that Store-Boards™ are free from defects in material and workmanship, but limits obligation under this warranty to replacement of the product shown, to Accuform's satisfaction, to have been defective at the time Accuform sold it. This warranty does not extend to any persons obtaining the product from the buyer. Under no circumstances will Accuform be liable for any loss, damage, expense, or consequential damages of any kind arising in connection with the use, or inability to use Store-Boards™. Accuform will not be liable for defects that are the result of product abuse, misuse, alteration or modification; or for defects that are due to a failure to install, maintain, or use of the product in accordance with our provided installation instructions.

Whether it's stock or custom, we have the hardware to secure your tools!

Once you've selected the perfect Store-Board™, don't forget to accessorize it with our wide selection of hardware. Choose from corrosion-resistance zinc-plated hardware, or stainless steel for added durability. Store-Boards™ come pre-drilled to make hardware installation a snap, and we offer a variety of options so you can customize your board to meet your specific requirements.

Zinc-Plated Hardware

For corrosion-resistant

Stainless Steel Hardware

For added resistance to corrosion – great for use in the food industry

Hooks

Standoffs

Broom Holders

Spring Clips

U-Bolts

Loop Rings

Custom Hardware

If equipment is heavy or has a unique shape that can't be secured with standard hardware – custom hardware is available. It can also reduce multiple pieces of hardware. For example, replace seven hooks with one magnetic strip. Our team will work with you to engineer the best solution.

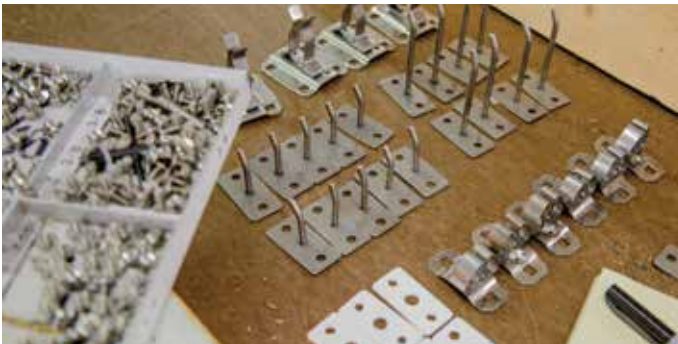

Dedicated 5S team, engineering, technology, and years of experience.

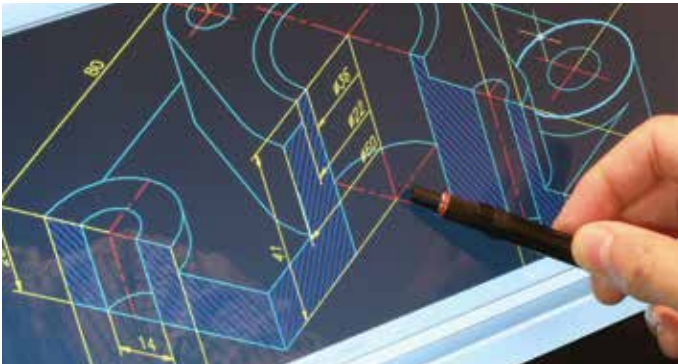

With years of 5S experience, and a team dedicated solely to helping you implement lean initiatives in your workplace, Accuform is ready to aid you in selecting the Store-Board™ that best meets your needs. Our commitment to embracing the newest technology and engineering practices means you'll not only receive a Store-Board™ that's a perfect match for your specific requirements, but one that will also last for years to come.

An experienced team dedicated to helping you implement lean initiatives.

Comprehensive range of hardware.

Committed to embracing new technology.

We'll create a Store-Board™ that's a perfect match for your needs.

HOW TO ORDER YOUR CUSTOM STORE-BOARDS™

1 Talk to our team of experts

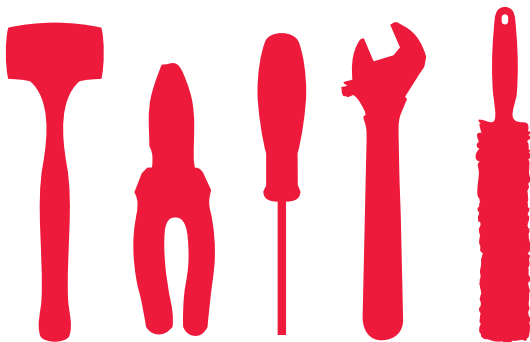

Not sure where to start? Our 5S Specialists will walk you through the process. From determining the perfect size and material for your Custom Store-Board™, to planning out what kind of hardware and materials will best suit your needs, we're here to make ordering and acquisition painless.

2 Provide your tool and layout requirements

After your initial consultation with your 5S Specialist, it's time to get to work conceptualizing your new storage system. Use one of the following options to create the perfect solution for your storage needs.

- **Option 1: Tool Part Numbers** – Give us a list with the manufacturers' name, brand, and model number and we'll do the rest.
- **Option 2: Photos or Tracings and Measurements** – Provide us with the height and width dimensions, along with tracings or pictures of your individual tools. Don't forget to include the depth and weight of these items! Every bit of information you can provide helps.
- **Option 3: Send us your tools** – Box up your tools and ship them to us. We'll configure the perfect Custom Store-Board™ for your needs, then return your tools once we're finished.

3 Personalize it!

Now it's time to get creative and make your Store-Board™ stand out from the crowd. Provide us with your logos, color code charts, layout ideas, and anything else you'd like to incorporate into the design. This is also a great time to discuss potential branding elements, company messaging, and other personalization options that will make your new Custom Store-Board™ unique to your company.

4 Finalize your project

With all the details in place, we'll get to work creating a digital proof based on your specifications. You will receive an email with the proof for your approval of the visual and layout elements. If you need revisions, we'll make them. When you're satisfied with everything, we'll complete the purchasing process and start production on your brand new Custom Store-Board™!

CLEAN & SWEEP STORE-BOARDS™ COMBO KIT

Clean & Sweep Store-Boards™ Combo Kit

Keep tools and supplies in their designated locations.

Clean & Sweep Store-Boards™ are ideal for non-food contact or general maintenance.

VINYL SHADOWS

Create your own Shadow-Board with REMCO and Vikan Tools and Shadows

It's the do-it-yourself approach to creating your own shadow board. We have the pegboard, tools, shadows, and hanging hardware for you to create your own organizational masterpiece.

Precision die-cut adhesive vinyl shadow replicates size, shape, and color of the tool.

Use liner grid lines to align shadow on board. Peel off back liner and press shadow in place.

Firmly peel off front shadow liner to finish shadow installation.

Install hanger hardware and hang tools over shadows.

Pegboards

Choose from a variety of materials and sizes to fit your application. Sold individually.

HOW TO ORDER YOUR CUSTOM STORE-DRAWERS™

Custom Store-Drawers™ make it easy to keep all your tools organized, protected, and accounted for with custom shadow shape cutouts. Ordering the perfect Store-Drawer™ to meet your needs is easy – just follow the simple instructions below and our team of experts will do the rest!

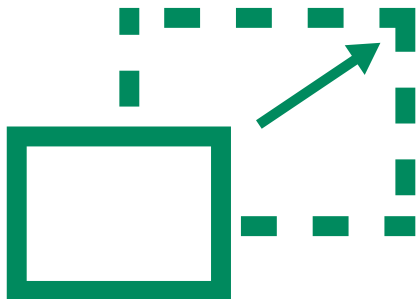

1 Talk to our team of experts

Getting started with your Custom Store-Drawer™ is a snap. Our dedicated team of 5S experts is on-call and ready to help you through each step of the process – from initial design to completion of your order. Have questions? We've got answers. We're "The Custom Experts" for a reason.

2 Determine the size and desired color combination of your new Store-Drawer™

One of the first things our 5S experts will need to know is the size of your Store-Drawer™. We need the dimensions as well as the tools that will be shadowed in the drawer. If possible, please provide a list of manufacturers and the part numbers of your specific tools. Select shadow and contrasting background colors (top layer color options: Black or Blue; contrasting background colors: Red or Yellow), as well as personalization details like company name, logo, colors, images, or lettering for the shadowed tools.

3 Finalize your project

With all the selections in place, our team will get to work creating a digital proof based on your specifications. Once completed, you will receive an email with the proof for your approval of the visual and layout elements. If you need revisions, we'll happily make them. At this time, we'll need you to ship your tools to us so we can guarantee the accuracy of your finished Store-Drawer™ (we'll ship your tools back in one business day). Once you're satisfied with everything, we'll complete the purchasing process and start production on your brand new Custom Store-Drawer™!

PERSONALIZE IT!

Custom Site-Boards™

Use Site-Boards™ visual communication centers to display KPIs (Key Performance Indicators), report on lean/Kaizen activities, or display production and scheduling plans.

- Any size and shape with any colors, images, logos, and graphic schemes
- Choose from a variety of materials and options, including dry-erase or magnetic
- Site-Boards™ can be created in several different styles to match your application. See examples of just a few styles we have created
- Outfit your Site-Board™ with additional components to increase its functionality
- Sold individually

Aim for success and measure what you treasure by establishing and maintaining Key Performance Indicators (KPIs).

See pages 32-35 for examples & styles of the wide range of Site-Boards™ we offer.

Multiple Panel Dry-Erase Site-Board™

With our mobile holders to dry-erase, we can design Site-Boards™ for you!

Materials

Site-Boards™ can be any size and shape with colors, images, and graphic schemes. Choose from three materials for use in industrial locations. The dry-erase surface is stain- and scratch-resistant to splashes and abrasions. Choose steel board to use magnetic shapes.

Ultra Aluma-Lite™

Ultra Aluma-Lite™ is a composite plastic bonded by two layers of aluminum to form an extremely durable product. Composite aluminum is extremely durable and lightweight (40% lighter than solid aluminum) making it an ideal choice for indoor or outdoor use.

Key Features:

- Corrosion and impact resistant
- UV-resistant
- .236" thick
- Service temperature: -60° to 260°F

Applications:

- Industrial environments
- Indoor/outdoor
- Construction

Galvanized Steel

Get the strength and durability of metal, and minimize rust and corrosion with Galvanized Steel.

Key Features:

- 24-gauge, galvanized steel
- Magnetic receptive
- Printed surface protected by dry-erase overlaminate film
- Service temperature range: -40° to 250°F

Applications:

- Use in splash and other wet situations
- Withstands outdoor environmental conditions

Max-Duty Aluminum

Max-Duty Aluminum is versatile material that provides the strength of metal yet never rusts. Max-Duty Aluminum comes with UV protective coating to prevent fading, chemical damage and graffiti.

Key Features:

- Chemical, abrasion and impact resistant
- UV-resistant
- .080" thick
- Service temperature: -40° to 250°F

Applications:

- Warehouse, industrial
- Commercial industry
- Indoor/outdoor

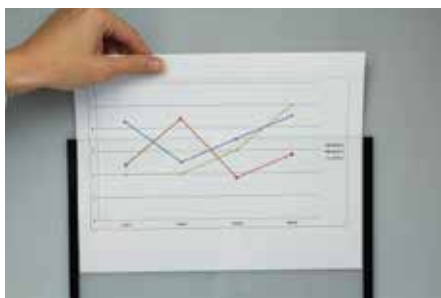

Site-Boards™ are designed with protection to maintain the printed images. Graphics, wording, and message will remain unchanged in clarity, color, and sharpness throughout the durability period. Site-Boards™ are sold with the understanding that the buyers will test this material, in actual use, to determine for themselves its adaptability to their intended environment and use(s). Accuform warrants that Site-Boards™ are free from defects in material and workmanship, but limits obligation under this warranty to replacement of the product shown, to Accuform's satisfaction, to have been defective at the time Accuform sold it. This warranty does not extend to any persons obtaining the product from the buyer. Under no circumstances will Accuform be liable for any loss, damage, expense, or consequential damages of any kind arising in connection with the use, or inability to use Site-Boards™. Accuform will not be liable for defects that are the result of product abuse, misuse, alteration or modification; or for defects that are due to a failure to install, maintain, or use of the product in accordance with our provided installation instructions.

Components

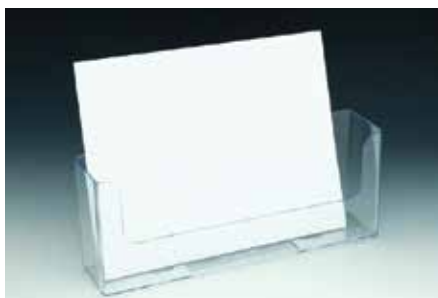

Add components to your board to meet your application's unique demands. Popular components are listed below; others are available upon request.

Silver Anodized Frame

Single-Sheet Holder

Plastic Literature Pockets

Plastic Brochure Pockets

Plastic Tag Pockets

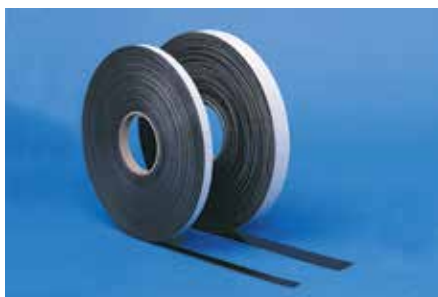

Wire Binder Basket

Tray

Plastic Binders

Write-On Magnetic Roll Labels

Dry-Erase Markers

HOW TO ORDER YOUR CUSTOM SITE-BOARDS™

Designing your very own Custom Site-Board™ may seem like a daunting task, but we're here to help you get a product that's custom-tailored to your specific needs. Follow the steps below and let us do the work!

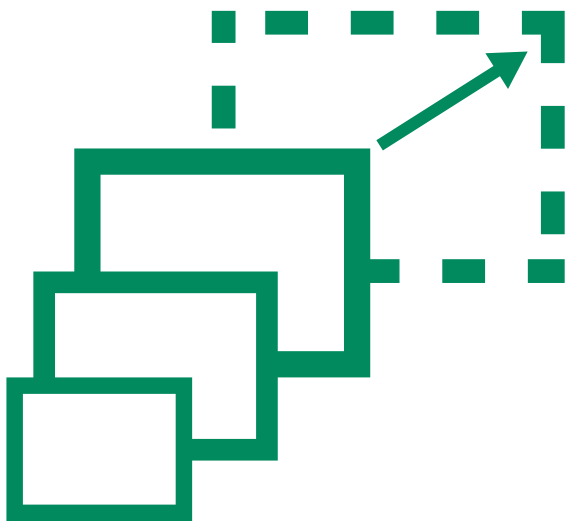

1 Choose board material by size and specify your requirements

The first step of the process involves conceptualizing your Site-Board™. Draw a rough version of the board's layout highlighting the size and shape you require. Don't worry – you don't need to be Picasso. A simple sketch will help us get started.

Next, add in your own grid or chart design with rows, columns, boxes, and other open areas. Be sure to include the dimensions!

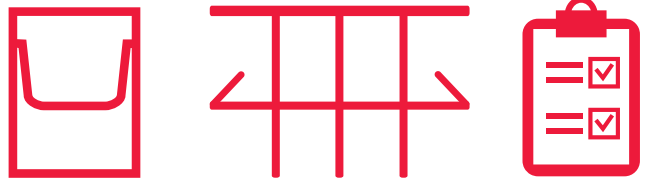

Mark the location of words, numbers, codes, symbols, and names on the board – then be sure to provide us with your logos, graphics, color choices, and other design considerations.

That's it – the hard part is done! We'll take your design and turn it into a reality.

2 Select any custom components and accessories you might need

With the basic board design in play, now's the time to customize. Make your board unique and perfectly suited to meet your needs by adding custom components like document holders, trays, and frames to your Site-Board™. See page 37 for options.

3 Finalize your project

With all the selections in place, our team will get to work creating a digital proof based on your specifications. Once completed, you will receive an email with the proof for your approval of the visual and layout elements. If you need revisions, we'll happily make them. If you're satisfied with everything, we'll complete the purchasing process and start production on your brand new Custom Site-Board™!

Two Sided Indicator Magnets

Double-sided magnets are perfect for tracking Key Performance Indicators in your facility.

- Keep your KPI Board organized and visually appealing
- Colored magnets clearly indicate performance goals at a glance
- Double-sided magnet is green on one side and red on the other
- Offered in packs of 40

Glow-in-the-Dark Tapes

- Photoluminescent marking tapes glow in the dark in a green-yellow color
- The marking tape is 'energized' by any light source – the longer exposure to light, the longer glow time
- White with slight green appearance for good visibility in regular light
- Made of flexible 10-mil polyester with coated gloss surface
- Permanent acrylic adhesive back with peel-off liner
- Glow rating for 10-hours
- Sold individually (footprints sold in pairs)

PERSONALIZE It!

Glow marking tapes are available in other widths and lengths. Order part number PTM955 and specify width, pattern, length, and quantity of rolls.

STANCHION POSTS

Chain Storage Stanchion Posts

Innovative design allows for storage of up to 10 feet of chain inside the post – eliminating the hassle of more traditional stanchion barricade systems.

- Easy to use: Simply pull out desired length of chain, fasten to second stanchion, then return it to the base unit when finished
- Available in two versions: unfilled (add water or sand) or filled base (no need to add additional weight)
- Twist top locks desired chain length in place
- Heavy-duty construction will provide years of use in the toughest environments
- Includes set of 2 posts

To order, add post color and chain color code after part number.

STYLE	NO.	PKG/2
Unfilled Base	PRC442	\$113.95
Filled Base	PRC444	\$136.75
